

Applied Materials EHS POLICY

Applied Materials is committed to protecting the environment, health and safety of our employees, customers, and communities – this commitment is instilled in our culture and reflected in our values.

We continually strive to improve the environmental, health and safety performance of our products, processes and operations and we integrate the following principles into everything we do:

- Value and prioritize human life above all else and proactively manage risks.
- Meet or exceed applicable environmental, health and safety regulatory requirements to minimize the impact of our operations on the environment, human health and safety.
- Build a culture of empowerment by establishing a sense of safety ownership throughout all levels of the organization.
- Seek opportunities for learning and collaboration.
- Continually improve EHS systems and processes to achieve our goals and objectives.
- Encourage and recognize employee and stakeholder engagement.
- Foster an environment of transparency and promote reporting of all EHS incidents.
- Keep employees safe and minimize operational downtime by utilizing a proactive Business Continuity Planning (BCP) approach to ensure resiliency and recovery capabilities.
- Ensure the safety of our products by applying a globally consistent approach along with industry best methods to minimize product safety risks.

All employees are expected to implement and comply with this policy and practice the principles above in accordance with their role at Applied Materials.

A handwritten signature in blue ink that reads "Gary E. Dickerson".

Gary Dickerson
President and CEO
